Team Management

TBC in the next set of information.

As part of the trip planning the club will need parent helpers to attend who will assist with meal preparation, transporting of gear and as managers for the event. Please contact me if you would like to discuss any of these roles.

Cost

The expected cost per competitor against the overall budget is outlined below. If you are travelling with the team from Dunedin the full cost is available below.. There are reduced costs for those with alternative arrangements.

The club has applied for funding to the New Zealand Community Trust NZCT to assist with travel and accommodation costs. SLSNZ also provide a \$100.00 per person subsidy for all athletes.

The cost matrix outlined below does not take in to account funding from NZCT. This will be applied in the next set of information if any funding is approved.

It is possible that there might be additional costs for the event if suitable vehicles for towing equipment cannot be obtained and vehicles need to be hired for this purpose.
